

## Factors Affecting Climate (review poster)

Choose 8 factors that affect climate. Orange 484-502  
Green 375-395

For each factor I need a detailed description 3-5 sentences,  
a detailed colored picture and a test question with the  
answer.

| Factors affecting climate |                                                                                                                                           |  |  |
|---------------------------|-------------------------------------------------------------------------------------------------------------------------------------------|--|--|
|                           |                                                                                                                                           |  |  |
|                           | <p>Greenhouse<br/>effect<br/>Detailed description</p>  |  |  |
|                           | <p>Question + Answer</p>                                                                                                                  |  |  |
