

<b>Importance of Oceans</b>	<b>p. 1</b>
<b>Origin of oceans</b>	<b>p. 2</b>
<b>Composition of Oceans</b>	<b>p. 3</b>
<b>Salts</b>	<b>p. 4</b>
<b>Desalination</b>	<b>p.5</b>

**FOR ALL PAGES** draw a detailed, colored picture that is related to the content of that page. **ALWAYS** write in your own words.

**p.1-** Describe three reasons why the ocean is important.

**p.2-** Explain the origin of the oceans.

**p.3-** How does oxygen enter the ocean?  
**-How** do sodium and chloride ions get into the seawater?

**p.4-** Define sodium chloride, halite and salinity.

**p.5-** Describe two methods that could be used for desalination.
