

Sequence 2

Speaker 1: On April, 22 2019 we celebrated the 39th annual Earth Day.

Speaker 2: People all over the world helped to clean our planet

Speaker 3: The whole idea of Earth Day was to make us all **Think** about how we treat the planet we live on.

Speaker 4: We must realize the Earth is precious to us. We can't live without it.

Speaker 5: We must stop being so wasteful. Our bad habits are hurting our world.

Speaker 6: If we don't change our ways, the world could become a terrible place to live.

Sequence 4

Speaker: Recycling is a vital part of the future of our planet. If we aren't recycling, we're throwing it all away.

Sequence 6

Speaker 1: There are many other ways to help save the Earth besides recycling.

Speaker 2: The products we buy and use may be harmful to our environment. We should try to find out which ones they are and stop using them.

Speaker 3: There are lost of safe products now that can be used instead.

Speaker 4: Most cars create pollutants in the air. We should try to walk or use a bike when we can instead of our cars.

Speaker 5: We are wasteful with our energy too. We should turn off lights and electronics when we aren't using them, and only run heat and air conditioning when we need to.

Speaker 6: We can save a lot of energy by insulating and weatherstripping our homes.

Speaker 7: We need to reduce our use of our valuable water supply too. We should try to use as little water as possible, and fix our leaky faucets too!

Speaker 8: Every time we start to throw something away we should stop and think, can this be recycled?

Speaker 9: Even organic garbage like banana peels and orange rinds can be reused. A compost pile is easy to make and use in our own yards.

Speaker 10: Trees are very important to our environment too! They absorb carbon dioxide and produce oxygen.

Speaker 11: Trees also give us wood for building, and homes for animals in our local ecosystem. Every time we cut a tree down we should plant a new trees to replace it.

Sequence 9

Speaker: We HAVE to save our world

Sequence 12

Speaker 1: It's all up to us. We CAN save our planet

Speaker 2: We have to start now. Everything we do affects our future.

Speaker 3: We've got to change our attitudes and our habits.

Speaker 4: We've got to remember Earth Day is not just one day a year.

Everyone: Earth Day is every day!!
