

Name _____ Date _____ Period _____

Stock Market Conclusion

Worth 15 Summative Points

Due Monday June 10th

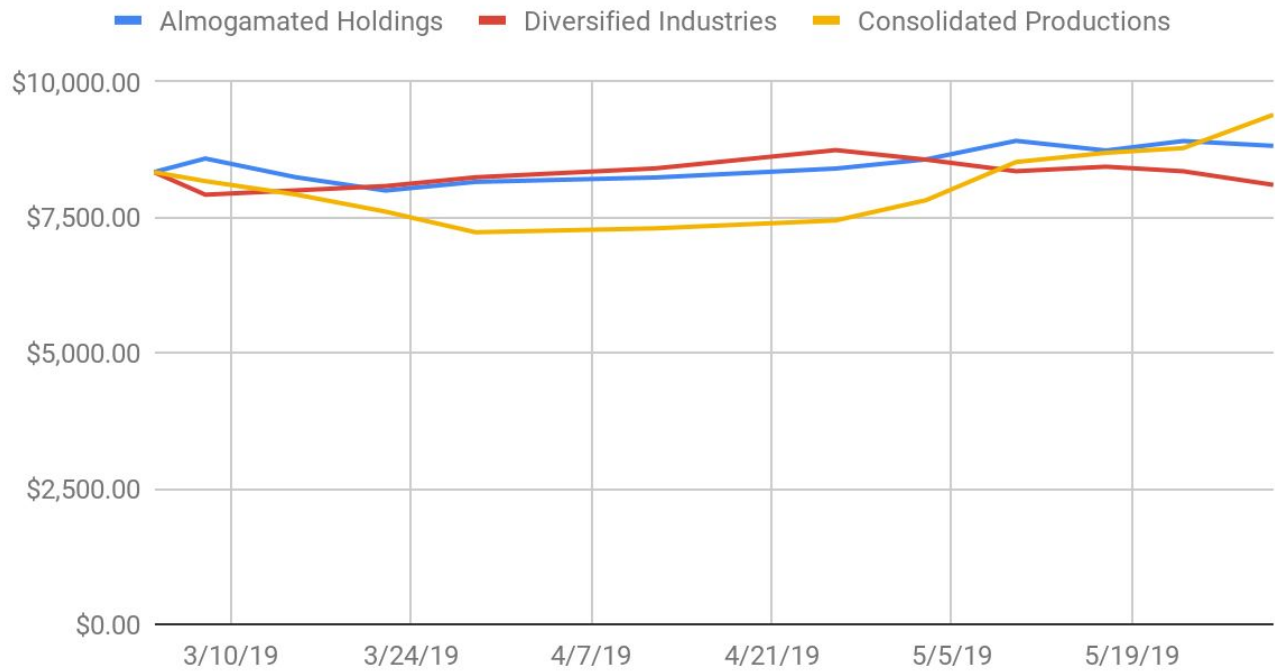

Create a graph showing how your stock choices have done throughout the semester, showing all 12 weeks. Create a different color line for each individual stock and show the price of your total investment in that stock (shares X buy price) change over each week. You can create your graph electronically (Google Sheets or Microsoft Excel are perfect) or you can draw it by hand. You also need to list your total change in portfolio so we can see who won the Stock Market Game.

Then, write a paragraph describing the changes in your stocks over the course of the semester. Did any consistently go up or down? Did any seem to follow the same pattern as each other? Did some stocks seem to have established maximums or minimums? Make note of at least 3 details.

Submit your graph and paragraph to Mr. Rauscher on paper during class on Monday June 10th.

Requirement	Excellent	Good	Subpar	No Credit
X and Y axis are labeled correctly (3 points)	Both axes labeled clearly and correctly with amounts marked off (3 points)	Axes mostly labeled well with one element missing (2 points)	More than one element of the axes labeling is missing (1 point)	Axes not labeled at all (0 points)
The stock values are clearly graphed (6 points)	Stock values are clear, properly calculated, and complete. Lines are color coded. (6 points)	Stock values are decipherable, but perhaps not totally correct or clear (4 points)	Stock values are incomplete, incorrect and/or unclear to the point of confusion (2 points)	No prices plotted on graphs (0 points)
The total portfolio change in price is listed on the sheet (2 points)	Portfolio change is clearly displayed along with current total portfolio value (2 points)	Portfolio change is listed clearly (1.5 points)	Change in portfolio value is listed, but is incorrect or unclear (1 point)	No portfolio value listed (0 points)
Paragraph clearly describes changes in stock prices (4 points)	Paragraph describes at least three changes and makes note of at least one pattern. (4 points)	The paragraph makes note of at least three changes, but does not note any patterns (3 points)	A paragraph is submitted, but does not describe enough changes or does so unclearly (1 point)	No paragraph submitted (0 points)

Change in Stock Prices

Total Value	\$26,304.63
Portfolio Value Change	\$1,304.63
