## **Economics: Economic Systems**

**27 Summative Points**

**Due Monday, February 24th by the beginning of class**

You will create a slideshow (Google Slides or Powerpoint) to define all of the economic systems and choose your favorite.

First, you must name all four systems. Then you must define them. Last, give examples of these systems as they currently exist in the world. You can find this info in Chapter 2 of the textbook.

Then choose your favorite economic system. Justify your response by naming advantages of that system and disadvantages of other systems.

Lastly, you will be judged on the style of your presentation.

The finished product should be emailed to Mr. Rauscher ([rauscha@dearbornschools.org](mailto:rauscha@dearbornschools.org)) by class time on Monday, February 24th. Submissions sent in past the deadline will have points deducted.
