

1. Graph using at least 5 points. Make sure the whole graph is shown.

$$y = -|x - 2| + 4$$

2. Graph using at least 5 points. Make sure the whole graph is shown.

$$y = 3(x + 2)^2 - 8$$

3. Write a function rule.

X	Y
-2	19
-1	15
0	11
1	7
2	3
