

Bellwork Monday, March 24, 2014

Solve each system of equations. Give answer as an ordered pair.

1.  $6c + 5d = 9$   
 $4c - d = -7$

2.  $9a + 8b = 4$   
 $3a + 5b = -8$

3.  $7m + 2n = 47$   
 $2m - 3n = -8$

4.  $4x - 3y = -11$   
 $6x - 5y = -17$
