

# Algebra 1 Bellwork Friday, September 11, 2015

Your task is to use four 4's and any math operation or symbols you want for each problem to create a certain answer.

For example you could create the total of zero by doing the following:  $4 + 4 - 4 - 4 = 0$

Now you try this to create totals of 1, 2, 3, 4, and 5.

\_\_\_\_\_ = 1

\_\_\_\_\_ = 2

\_\_\_\_\_ = 3

\_\_\_\_\_ = 4

\_\_\_\_\_ = 5
