

ALG 2 BELLWORK  
THURSDAY, SEPT 12, 2013

1. Quadrilateral ABCD is a kite. Find the measure of all the numbered angles.

2. If  $AP = 6$ ,  $AB = 10$  and  $BC = 17$  find the the length of the two diagonals and the area of the kite.

Solve.

$$|3x + 5| = x - 1$$
