1. Write the equation of this tangent function. The window is 0 to 3π

2. Write the equation of this tangent function. The window is 0 to $\frac{3\pi}{2}$

3. Find the location of 4 VA and 4 zeros of this tangent function:

$$y = -\text{Tan}8x$$

4. Find the location of 4 VA and 4 zeros of this tangent function:

$$y = \text{Tan}\frac{7x}{5}$$
