

1. Describe yourself as a student.

2. Describe yourself as a person. What things do you like to do?

3. Will you start and do bellwork each day?

4. Will you give your best effort in this class?

If yes, describe what best effort means to you.

If no, why not?

5. Will you seek help if you find something difficult to understand or master?

6. What percent of time will you complete and turn in your assignments on time?

7. What percent of time will you pay attention in class?

8. Will you take notes daily in an organized way?

9. Will you participate in class in a positive, respectful, and productive manner?

10. How do you learn best?

11. What are your strengths in math?

12. What are things that you want to improve upon in math?

13. What is your definition of being successful in this class?

14. What things can I do for you to help you be successful?
