

1. How many triangles, of any size, are in the diagram below?

2. How many rectangles, of any size, are in the diagram below?

1. How many triangles, of any size, are in the diagram below?

2. How many rectangles, of any size, are in the diagram below?

Answers

①

$$\Delta = 16$$

$$\Delta = 7$$

$$\Delta = 3$$

"Big one" → $\Delta = 1$

$$= 27$$

② Remember SQ are Rectangles!

$$\square = 6$$

$$\square = 2$$

$$\square = 4$$

$$\square = 3$$

~~16~~

$$18$$

"Big one" → $\square = 1$

$$\square = 2$$
