Use this function:  $f(x) = (x - 1)^2 - 3$

1. Fill out this table of values, plot the points, connect them to form the graph of this quadratic.

| X  | Y |
|----|---|
| -2 |   |
| -1 |   |
| 0  |   |
| 1  |   |
| 2  |   |
| 3  |   |
| 4  |   |

2. State the Domain and Range of this function.

Domain:

Range:

3. Make a table of values for the inverse,  $f^{-1}(x)$ . Then plot these values on the same graph as  $f(x)$ .

| X | Y |
|---|---|
|   |   |
|   |   |
|   |   |
|   |   |
|   |   |
|   |   |
|   |   |

Is the inverse relation a function? Explain.

4. State the domain and range of the inverse: Domain:

Range:

5. Write the equation of the inverse below by switching  $x$  and  $y$  then solving for  $y$ .

$$f^{-1}(x) =$$

6. Use a graphing calculator to graph the inverse in a Standard Window. Sketch the graph below:

State the Domain and Range of this graph:

Answers

Use this function:  $f(x) = (x-1)^2 - 3$

1. Fill out this table of values, plot the points, connect them to form the graph of this quadratic.

| X  | Y  |
|----|----|
| -2 | 6  |
| -1 | 1  |
| 0  | -2 |
| 1  | -3 |
| 2  | -2 |
| 3  | 1  |
| 4  | 6  |

2. State the Domain and Range of this function.

Domain: ALL REAL #s  $(-\infty, \infty)$  Range:  $y \geq -3$   $[-3, \infty)$

3. Make a table of values for the inverse,  $f^{-1}(x)$ . Then plot these values on the same graph as  $f(x)$ .

| X  | Y  |
|----|----|
| 6  | -2 |
| 1  | -1 |
| -2 | 0  |
| -3 | 1  |
| -2 | 2  |
| 1  | 3  |
| 6  | 4  |

Is the inverse relation a function? Explain.

NO. The graph of the inverse,  $f^{-1}(x)$ , doesn't pass the ~~Horizontal~~ Vertical Line Test

4. State the domain and range of the inverse: Domain:  $x \geq -3$   $[-3, \infty)$  Range: ALL REAL #s  $(-\infty, \infty)$

5. Write the equation of the inverse below by switching  $x$  and  $y$  then solving for  $y$ .

$$f^{-1}(x) = \sqrt{x+3} + 1$$

$$x = (y-1)^2 - 3 \Rightarrow \sqrt{x+3} = \sqrt{(y-1)^2} \\ \sqrt{x+3} = y-1 \Rightarrow \sqrt{x+3} + 1 = y$$

6. Use a graphing calculator to graph the inverse in a Standard Window. Sketch the graph below:

State the Domain and Range of this graph:

Domain:  $x \geq -3$   $[-3, \infty)$

Range:  $y \geq 1$   $[1, \infty)$
