

Thursday, September 14, 2017

I can give the domain and range for a given function in interval notation.

I can describe increasing, decreasing and constant intervals of a given graph.

I can describe the end behavior of a given graph.

SLOT: Multiplying Polynomials (QUIZ FRIDAY!)

1. $(-2b + 3)(-2b + 3)$

2. $(7 + 2y)(7y + 2)$
