

Environmental Science

Across

1. waste runoff into a river
2. a leaky oil tanker in ocean
3. proper utilization of matter
4. too many in an area
5. your school during school hours
6. makes sure neighborhood is safe
7. electricity from trash
8. harmful substances
9. describes fossil fuels
10. pollution by planes on the tarmac
11. removal of old healthy plant
12. Brown Anole is an example
13. refers to alternative energies
14. pollution that burns
15. releases cancerous energy
16. emit gases at lowered level
17. many different organisms
18. mushrooms & E. coli the actors
19. do every week to avoid fines
20. eagles & condors are this
