## Maintaining Biodiversity

Go to [www.scilinks.org](http://www.scilinks.org). To find links related to maintaining biodiversity, type in the keyword HSM0902. Then, use the links to answer the following question about maintaining biodiversity.

Select a terrestrial or aquatic biome or ecosystem.

1. Describe the ecosystem.

---

---

---

2. List some plants and animals that live in this ecosystem.

---

---

---

3. Give several examples of how the organisms in this ecosystem depend on each other for survival.

---

---

---

4. Select and identify one organism. Describe what might happen within the ecosystem if that species were removed.

---

---

---

5. How might people help protect the biodiversity in this ecosystem?

---

---

---
