
Science Fair Project...Getting Started!

Dear Snow Families of Grades 3-5,

All students grades 3-5 are required to participate in our 5th annual science fair. Please help your child brainstorm ideas for his/her science experiment. Ideas can be found on the following websites.

www.sciencebuddies.org www.super-science-fair-projects.com www.sciencefair-projects.org

Allowable Projects Experimental type projects that use the scientific method with a testable question. Ex. Does aspirin affect the growth rate of roses? What brand of bread grows the most mold?

Projects Not Allowed Research projects (What is a hurricane?) or models (a volcano; a solar system). These do not involve testing.

Please have your child fill out this form and return it to your child's teacher no later than Thursday, December 21st. Science projects are due Monday, February 5th. Students will present projects in class for a grade. The grading rubric is attached.
