Science has proven that chicken is better for you,
and raises your life expectancy by two years.

Due to selfishness of humans,
turkeys are cruelly slaughtered.

Trust me, I have worked in the farming
industry for 25 years.

If we keep eating turkeys, one day they
will likely be extinct.

What about the baby turkeys? Who will take care
of them when you eat me?

20% of Americans eat something other

than turkey on Thanksgiving.
