

Hospitals have many kinds of hospital workers!

Hospital Workers Caring for a Man

**Would you like to work in
a hospital? Why?**

- Hospital workers care for people who are sick, and they care for people who are hurt too.
- People who are sick or hurt often need help to feel better.
- Hospital workers help find out why people are sick or hurt.
- They help people feel better. Hospital workers include doctors, nurses, aides, dietitians and pharmacists.
