Advanced Movie Making and Video

Objective Correlative Video

Independently, you will make a video that shows an objective correlative. A character must interact with an object in a way that indicates a feeling. Then they must indicate a change in feeling. Talking is perfectly fine, but the talking must not directly state their feelings. These videos will be due by 11:59pm on Sunday, March 29th.

- The character does not directly state their feelings (3 points)
- A character noticeably interacts with an object (6 points)
- The character has a clear feeling toward the object (8 points)
- The character clearly changes their feeling about the object (5 points)

- Scene is between 30 second and 3 minutes (1 point)
- Script shared with Mr Rauscher or on Google Classroom (1 point)
- Appropriate for class (1 point)

Total Score: /25
