

### Unit Overview

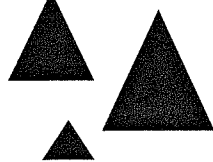

Dear Family,

This unit is all about sorting and matching objects along with continued practice with numbers 0-5.

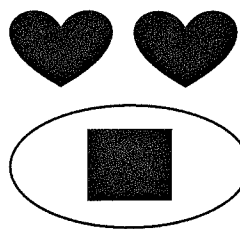

Pair

Sort

Less

Pattern

### Unit Vocabulary

**alike, different:** students will be able to tell how objects are alike and different

**more, less, same:** students will be able to compare objects/numbers by stating whether there is more, less, or the same amount

**sort:** students will be able to sort objects by shape, color, size

**pattern:** students will be able to identify the pattern and predict the next piece in sequence

### Unit Hands-On Fun

- Using objects around the house, have your child make a pattern. (example: spoon, fork, spoon, fork)
- Have your child sort objects by color, shape, and size.
